SUMMARY

I am a full-stack developer with extensive experience in building scalable web and mobile applications. My expertise includes Next.js, React, TypeScript, Node.js, Express, and MongoDB, emphasizing clean UI development and maintainable code. I'm currently expanding my skills into cross-platform app development with React Native while being proficient in CI/CD pipelines and containerized deployment

EXPERIENCE

Full-Stack Developer

Kreative Werbung

📅 06/2025 - Present

Full-Stack Developer Full Time

- Worked on full-stack application development at Kreative Werbung, contributing to improved user experience and reliable feature delivery
- Built responsive and maintainable front-end interfaces using Next.js and TypeScript, ensuring smooth and intuitive user interactions
- Deployed and managed applications using Docker, Portainer, and Woodpecker CI, supporting stable and efficient release workflows
- Integrated and optimized SQL and MongoDB databases to ensure efficient data storage, retrieval, and overall application performance

Intern

Kreative Werbung

📅 11/2024 - 05/2025

Full-Stack Developer Intern

- Developed and improved full-stack applications using Next.js and TypeScript, contributing to smoother user workflows and UI performance
- Built and integrated backend APIs with Node.js, Express, and Prisma to optimize data handling and reduce response time
- Utilized Sanity and Directus CMS to enable non-technical team members to manage site content efficiently
- Collaborated with designers and developers to fix bugs, add new features, and deploy updates in a fast-paced production environment

EDUCATION

Bachelor of Computer Applications (BCA)

IGNOU

📅 06/2023 - 06/2026

SKILLS

Next.js	React	React Native	
TypeScript	Node.js	MongoDB	
Tailwind	DirectUs	Docker	
WEBRTC	JWT	HTML	CSS
JavaScript	PostgreSQL		
Express.js	Mongoose		
Redux Toolkit	Git	GitLab	
Google Firebase	Postman		
Visual Studio Code			

PROJECTS

Gigga-Chat

🔗 [Download APK](#)

- Built a real-time mobile chat application with support for text messaging, media sharing, and secure authentication
- Integrated WebRTC for live video and audio communication and implemented JWT-based auth with a custom backend
- Focused on smooth UI/UX, message synchronization, and device-responsive performance across Android/iOS

Beyond Just Work

🔗 <https://beyondjustwork.com/>

Company Website

- Contributed to building and maintaining production features for the Beyond Just Work website, improving user experience and navigation flow
- Implemented responsive UI components using Next.js, TypeScript, and Tailwind CSS, and integrated APIs for dynamic data rendering
- Worked in a two-member development team to deploy updates, fix bugs, and enhance performance in a live production environment

Personal Portfolio
